Christmas Issue

In 2008 LDC Group undertook a range of consulting assignments ranging in size and complexity, and some of these projects are continuing in 2009. You can find out more about these assignments on our website.

During 2008 our team with direction from Mark Lyall, further explored multimedia formats for use in research, education and promotional activities. We will continue to learn more about new and emerging multimedia applications in 2009. You can view some of the digital stories developed for specific projects on our website.

Quality Support Network

An important project that was recently completed for the Quality Support Network was the development of a communication strategy and self-learning workbook on the Quality Framework for Victorian Disability Services. This work will be presented at the National Disability Services (NDS) Conference: *Strengthening Quality in Disability Services* on Friday 13th February 2009. You can find out more about the conference from NDS by contacting Erin Davidson on 03 8341 4300.
